

# Hit The Jackpot With KEP Low-Cost Meters

KEP low-cost counters offer you a winning combination of innovative design, reliable and accurate performance, and excellent value. For machine builders and maintenance technicians, the payoff is improved customer satisfaction and reduced warranty repair costs.

Features and benefits include:

- Immunity to power failures and electrical noise
- A wide range of mounting and display options
- Available in a variety of operating voltages
- Electronic or electromechanical design options

Call or email us today to find out how KEP counters can help you win, by reducing the cost and improving the reliability of your equipment.
